

OCEAN SAFETY®

Jonbuoy Recovery Module

JON BUOY®

datasheet

R10 Ready

Recovering a man overboard can be an extremely hazardous operation for both the crew and the casualty, regardless of vessel size. The Jonbuoy Recovery Module is designed to make this a simple operation, whilst increasing vital visibility and buoyancy for the casualty. Accepted as a direct replacement for a traditional danbuoy, horseshoe, drogue, light and whistle, specified within the ISAF offshore special regulations.

Features:

- Automatic inflation
- Automatic light
- Lifting ring
- SWL of 200kg
- Retroreflective binding
- Large ballast pocket
- 5m weighted throwing line
- Repackable
- Compact & lightweight
- Slimline container
- R10 attachment point

NEW VERSION Mk5
with upgraded materials & design

New Features for Mk 5

- Better in water performance
- New style casing
- Retroreflective binding
- R10 attachment patch
- Larger visible mast
- Ballast meshing
- Fully supported Lifting mechanism
- Remote station release option

View of boarding side

Available in 4 variations in pushpit and bulkhead mounts with white or carbon style casing.

New style casing in white or carbon look

Carbon case back view

Colour	Dimensions(cm)	Weight (kg)	Part No

Recovery Module Release System

The module release system allows the Jonbuoy Recovery Module to be remotely deployed. A simple switch system fires a small CO₂ cylinder, and allows the system to be disarmed when in port.

Description	Part No
Module release pack	JON1250
Module switch pack	JON1350
Release spares pack	JON1355
