DACON RESCUE BASKET

effective method of recovery

INTRODUCTION

- Stable and effective method of recovery
- Perfect for mass rescue situations
- Rugged aluminium construction with soft padding
- Low floating position for easy entry
- Quick- folding lifting mast for convenient stowage

SAFETY

FENDERS

The Basket is completely padded for protection of

Typical Applications

ERRV/ Standby Navy Ships **Offshore Support** SAR Cutters Commercial Vessels to meet SOLAS III-17-1 req.

occupants. A large float in the mast prevents capsizing. Metal net covered sides for safety.

Fenders rotate for easy recovery of casualties and for protection when hauled against the ship side.

LIFTING MAST

The mast folds/ erects in seconds without tools.
