CAP 437 Helicrash Cabinet (JB08Heli)

Typical use:

For the storage of CAP 437 regulation rescue tools. This cabinet is widely used in the Offshore energy and marine sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

The cabinet comes fitted with a range of 316SS brackets to store the CAP437 tools in an orderly fashion for rapid access in an emergency. Please note the ladder and grab hook would need to be stored elsewhere.

The door can be specified with left or right hinging and features a nylon rod handle to make it easy to pull open the door even when wearing gloved hands. gloves.

Standard specification:

Dimensions (mm)

Height x width x depth: 1474 x 918 x 477

Aperture: 1234H x 704W

Internal depth: 388
