JB17LJ Automatic Lifejacket Cabinet

Typical use:

For storage of 40-45 Automatic Lifejackets. This cabinet is widely used in the Offshore energy and marine sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

This cabinet is fitted with 9 x GRP saddles.

The interlocking doors feature a Stainless steel L handle to pull the door open to guarantee fast access even when wearing gloves.

Standard specification:
