# JB54HR Fire Hose Reel Cabinet

### Typical use:

For the storage of a Swinging Hose reel. This cabinet is widely used in the Offshore energy and marine sectors.

### Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

The door can be specified with left or right hinging and features a nylon rod handle to pull the door open to guarantee fast access even when wearing gloves. The reel can be fitted to either side which is reinforced to take the weight of the reel and bracket.

### Standard specification:

Dimensions (mm)

Height x width x depth: 857 x 1070 x 435

Aperture: 692H x 868W

Weight Kg: 19Kg

### Material specification:

Colour: Red RAL 3000

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: 316 Stainless steel

Handle: Recessed nylon rod

Seal: EPDM

### Optional Extras:
