JB62.150 Emergency Equipment Cabinet

Typical use:

For the storage of personal evacuation equipment, smoke hood, torch and gloves. This cabinet is widely used in the Offshore energy and marine sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the lid aperture. The hinges and catches are secured with 316 stainless steel nuts, bolts and washers.

Standard specification:

Dimensions (mm)

Height x width x depth: 361 x 276 x 150

Aperture: 312H x 232W

Internal depth: 123

Weight Kg: 5Kg
