JB73 SOPEP Kit Chest

Typical use:

For the storage of SOPEP kit. This chest is widely used in the Offshore energy and marine sectors.

Description:

These chests are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the lid aperture. The hinges and catches are secured with 316 stainless steel nuts, bolts and washers.

Standard specification:

Dimensions (mm)

Height x width x depth: 875 x 1480 x 1050

Aperture: 840Dx 1382W

Internal depth: 840

Weight Kg: 39 Kg

Material specification:

Colour: Yellow RAL1018

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: 316 Stainless Steel

Lid Catch: 316 Stainless steel Over centre catch

Seal: EPDM

Optional Extras:

Other RAL colours

Class 1 fire retardant composites

Manufactured in the UK
