

OCEAN SAFETY THROW LINE

The Ocean Safety Throw Line is designed for use in rescue situations at sea or in any waterway.

Allowing for increased accuracy in any under / over arm heaving line throw, this sock line package also provides a compact way to store the buoyant line on-board.

Available with or without a bracket and designed to allow easy repacking.

Key features

- 36m version - World Sailing compliant
- Weighted to improve distance & accuracy
- Durable, high visibility cover
- 700kg breaking load
- Easy to repack
