

# OCEAN SAFETY COMPACT CRADLE

The Ocean Safety Compact Cradle has been designed to mount your Ocean Safety liferaft, offering a solid bespoke mounting solution.

The stainless steel cradle requires four beams and four feet to fit the raft. Alternatively, the four feet are available on their own.

The cradle can be mounted horizontally only. (Deck fixings are not included).

## Key features

- Available in galvanised or stainless steel
- Feet supplied with integrated rubber padding
- Beams supplied as a set of four including nuts and bolts for fixing to feet
- Available for 6-16 person compact liferaft or 14/16 person ISO liferaft
- Optional mounting kit for deck mount (sold separately)
- Lashing kit can be configured for quick release or HRU
