JON BUOY
HORSESHOE

The Jon Buoy Inflatable Horseshoe is a direct replacement for traditional horseshoe lifebuoys.

The rail or bulkhead mounted compact unit comes fitted with an oral tube, retro-reflective tape, whistle and an automatic inflation system as standard. An automatic light is an optional extra that can be fitted to the horseshoe. The weight of the unit allows for an accurate throw to the casualty.

Key features

- Automatic inflation
- Quick & easy to deploy
