

OCEAN SAFETY SPORT ADV 165N

The Ocean Safety Sport ADV 165N Lifejacket is designed for comfort, performance, and maximum safety.

It features a removable crotch strap for added security, a contoured neck for improved comfort, whilst its enhanced flotation angle helps you stay in a safe, upright position.

The ADV models come equipped with a built-in light and spray hood as standard, providing increased visibility and protection in challenging conditions. These features greatly improve rescue chances and help reduce the risk of secondary drowning by keeping the airway clear of water and spray.
